

# PLS-2000

## MINI PRIVATE SERVER

- Easy to Operate
- Support Double-Unit Hot Backup
- Lifetime License
- Own Private Server, Private Database
- Support Deployment of LAN and WAN Operation

## PRODUCT PARAMETERS

### HARDWARE

|                     |                                                               |
|---------------------|---------------------------------------------------------------|
| SSD                 | 256GB (1TB can be customized)                                 |
| Running Memory      | 8GB                                                           |
| Network Port        | 2* Gigabit Ethernet                                           |
| I/O Interface       | 2*USB3.0, 2*USB2.0, 1*COM, 2*LAN, 1*VGA, 1*HDMI, 1*SPK, 1*MIC |
| Shell Material      | All-Aluminum Alloy Housing                                    |
|                     | Compact and Strong, High Compression and Impact Resistance    |
| Cooling System      | High Density Metal Grid Heat Dissipation                      |
| Power On            | Yes                                                           |
| Installation Method | Embedded, Wall Mounted, Flat Placed                           |
| Power Adapter       | DC 12V-5A                                                     |
| Dimension(LxWxH)    | 134x124x36mm                                                  |
| Weight              | 650g                                                          |

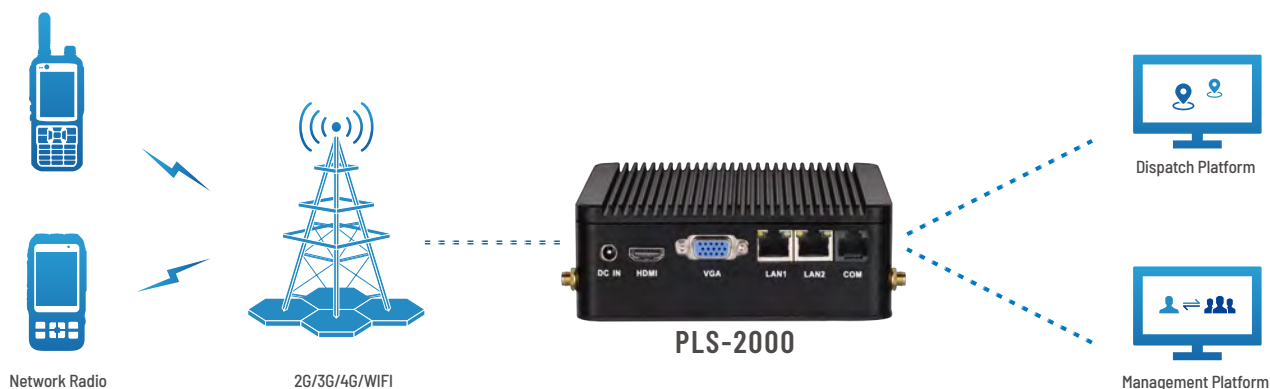

### OS

|    |             |
|----|-------------|
| OS | Cent OS 7.8 |
|----|-------------|

### ENVIRONMENTAL INDICATOR

|                     |                                             |
|---------------------|---------------------------------------------|
| Working Temperature | -20°C ~ 65°C                                |
| Working Humidity    | 5% ~ 95% Relative Humidity, No Condensation |
